PROJECTS

My Projects (My Projects Page) (<https://pavanistaticweb.ccbp.tech/>)

Developed an online showcase of an individual's projects for interviewer assessment

- Crafted the banner segment and project cards with a variety of HTML block and inline elements.
- Refined the website's look with CSS3 methods, including background, flex, box model properties, and a mix of relative (vh, vw) and absolute (px) units.

Technologies used: HTML, CSS, Bootstrap

Wikipedia Search Application (<https://pavaniwiksearch.ccbp.tech/>)

Experience a new level of information access with a custom Wikipedia search application that simplifies the search process. With a user-friendly interface and relevant results, users can expand their knowledge in no time.

- Intuitive search results with HTML list elements, styled with CSS, Bootstrap, and responsive design for a seamless user experience.
- Effortlessly access desired information with asynchronous fetch GET HTTP API calls and the option to open results in a new tab for further exploration.

Technologies used: HTML, CSS, JS, REST API Calls, Bootstrap

Chatbot (<https://pavanipchatbot.ccbp.tech/>)

An innovative Chatbot designed to offer personalized and engaging interactions with users.

- User-friendly UI created using HTML, CSS, and Bootstrap to display user-chatbot interactions.
- Dynamic display of user inputs and chatbot responses achieved through JavaScript DOM operations and Array methods.
- Chatbot responses tailored to user inputs by filtering relevant answers from its predefined list.

Technologies used: HTML, CSS, JS, Bootstrap

Ecommerce Application (<https://pavanixttrenz.ccbp.tech>)

Developed a responsive single-page ecommerce web application using React.js to facilitate seamless shopping experiences.

- Designed and implemented multiple routes including home, cart, and product detail pages using React Router.
- Developed reusable React components for product listings, cart management, and checkout processes.
- Integrated state management with state component for maintaining application state.
- Enhanced user interaction by implementing features like dynamic cart updates and real-time price calculations.

Technologies used: React.js, JavaScript, HTML, CSS, Context API

CERTIFICATES

Microsoft Certified

Dynamics 365 Fundamentals Customer Engagement Apps (CRM)

Virtual Internship Certificate
